P1112A, D808 AC Orange, D808 AC Pumpkin

P1248A, D811 AC Periwinkle

LA

Lumetta's Linear Acoustic

A functional design providing significant light output and effective sound absorption. Various sizes of rectangular luminaires create clusters and arrays for optimal acoustic comfort. Aluminum frames are surrounded with Sutherland Felt Co.'s 9mm PET designer board felt and are available in all of our powder coat finishes including F13 Polo, F14 Sandstone, F15 Galaxy, and F16 Cyan.

Acoustic shade colors are offered in two designer board felt color configurations (adjacent orientation) as well as single color offerings. Corner lap joints, accent materials, strong lines, a 9mm profile and thoughtful transitions make for a harmonious design and represent Lumetta's style and artful conception.

P1260A, D815 AC Pear, D810 AC Purple

W1210A, D807 AC Pumpkin, D806 AC Yellow

P1440A, D802 AC Marble, D819 AC Pepper
