TASK

The right kind of lighting improves reading ability and creates a more noticeable difference in colors, thereby preventing eye strain.

Our new high-efficiency LED Task Collection makes reading, writing, working, and day-to-day life easier—while improving energy efficiency and reducing waste for a cleaner environment.

Task Collection adds superior value-engineering and energy-efficiency, while boosting overall comfort, health and productivity—all at a truly affordable price point.

We now offer two progressive, surface mounts with a distinctly modern flair. Aptly named Stark and Muse, both are available in two durable frame finishes; black or white.

- Stark is available as a single surface, single finish fixture.
- Muse can be ordered in three exclusive designer shade wrap options: Chevron, Marble and Squiggle.
- The fixtures are offered with up/down lighting and meet all utility and design requirements.
- Innovative, high-quality, decorative lighting solutions for commercial lighting applications.
- Perfect for medical, hospitality, education, government, retail, and office uses.
