Lumetta's Introduces the Exterior Silhouette Sconce

*The Latest Addition to Their Portfolio of Lighting Solutions
Provides a Beautiful Starry Light to Exteriors*

Providence, RI – March 14, 2022

Lumetta, Inc., a US-based leading provider of custom-designed, decorative, commercial lighting products, is pleased to announce the latest addition to our broad range of luminaires.

We are excited to offer an impressive new extension of our Silhouette Collection. Lumetta's **Outdoor Silhouette** is an exterior sconce with a modern appearance and sharp rectangular lines. The water resistant IP65 wall sconces sublimely accent and illuminate their surroundings.

The **Outdoor Silhouette** blends harmoniously with our interior **Silhouette** lighting to seamlessly merge indoor and outdoor living. Laser-cut embellished metal panels light the way and provide a beautiful starry atmosphere for porch, patio, entryway, balcony, or stairway. The fixtures are streamlined with a crisp pattern and feature diffusing light from the integrated LEDs.

Outdoor Silhouette options are now available for all 24 of Lumetta's interior **Silhouette Collection** of sconces. With a variety of sizes, panel designs and exterior grade powder coat finishes, it's easy to create the perfect solution for your external lighting requirements. Available in your choice of our extensive range of antimicrobial and washable Lumenate® diffusers, our IP65 water resistance rated, ADA compliant, and durably constructed luminaires add a dash of character and make an artful statement to any exterior. Add to this our stainless-steel hardware and you've got a timeless piece of art that will provide a year-round investment to your outdoor décor.

View the new **Silhouette** on our website at: lumetta.com/collection/silhouette/

"Light is the first element of design; without it there is no color, form, or texture. Light is the insubstantial foundation of our world."

- Thomas E. Farin - Educator, Lighting Consultant, Entrepreneur

Lumetta's versatile line of contemporary laser-cut LED exterior sconces complements any space and is ideal for all outdoor lighting needs.

About Lumetta:

Established in 1992 and specializing in custom-designed commercial lighting, Lumetta is a national leader in the design, manufacturing, and distribution of innovative, high-quality, decorative lighting solutions for commercial and high-end residential applications.

Our team of lighting engineers and design experts work with professionals in all commercial sectors, including medical, hospitality, education, government, retail, office, and transport hubs; ensuring complete satisfaction and the best quality and professional service for all your lighting needs. We are committed to providing superior customer service and product performance.

Most of Lumetta's fixtures are made using our proprietary Lumenate®, a material designed and used exclusively for our luminaire shades. Lumenate® is washable, antimicrobial, fade resistant, designed to bring out vibrant colors, hues and patterns, and is fully customizable to match colors and display custom graphics.
