

**Lighting creates the
right atmosphere and
elevates the aesthetics and
functionality of the space.**

*The choice of materials is
as important as the design.*

Our Core Business Pillars Define Our Principles and Set Us Apart from the Rest:
Vision, Innovation, Creativity, and Collaboration - [Lumetta](#)

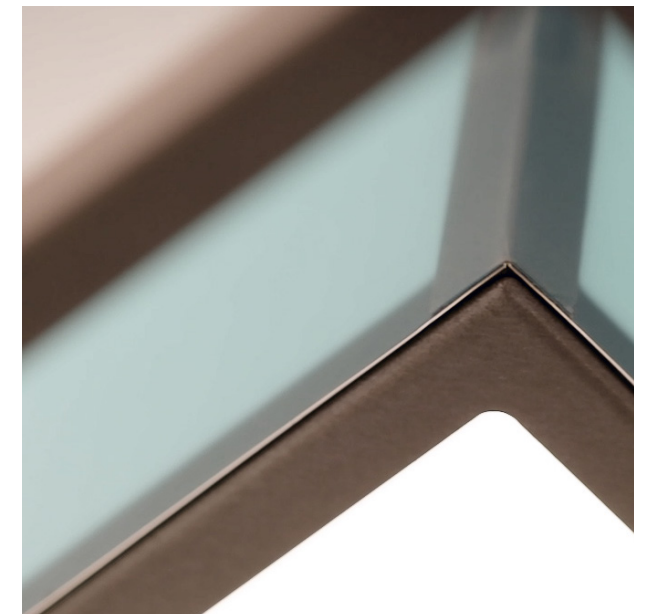

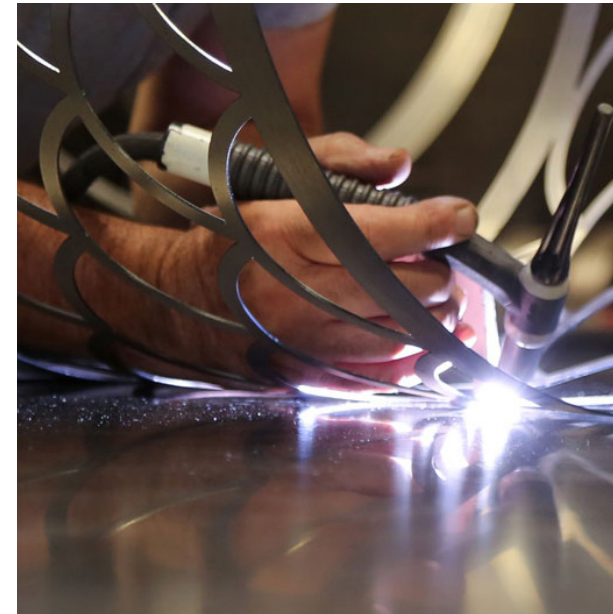

Lumetta®

Decorative Commercial Lighting Handcrafted in the USA

Our lighting solutions are found in healthcare, hospitality, education, and retail environments, among many others. They're made with the finest quality materials by master artisans.

Every fixture we create is built using the latest in sheet metal fabrication, tooling, CNC lathing, laser cutting, and powder coating. And it's all done under one roof.

Our dramatic fixtures are hand wrought in Warwick, RI by local artisans to meet your specifications. Each and every one of our lighting products are then rigorously quality controlled with our specific manufacturing processes and proudly designated as "Buy American".

Philosophy

Passion and Inspiration Make Us Who We Are

Lumetta has been challenging traditional conventions for more than 30 years. Our innovation, research, and ability to excite and inspire others with exceptional design and craftsmanship is without equal in the industry.

We're passionate about our work and have contributed significantly to many notable projects within the US and Canada. We're equally passionate in our commitment to our customers and their lighting visualizations.

We are deeply focused on being customer-centric and actively seek out new innovations and best practices to meet our customers' complex, creative, and functional specifications.

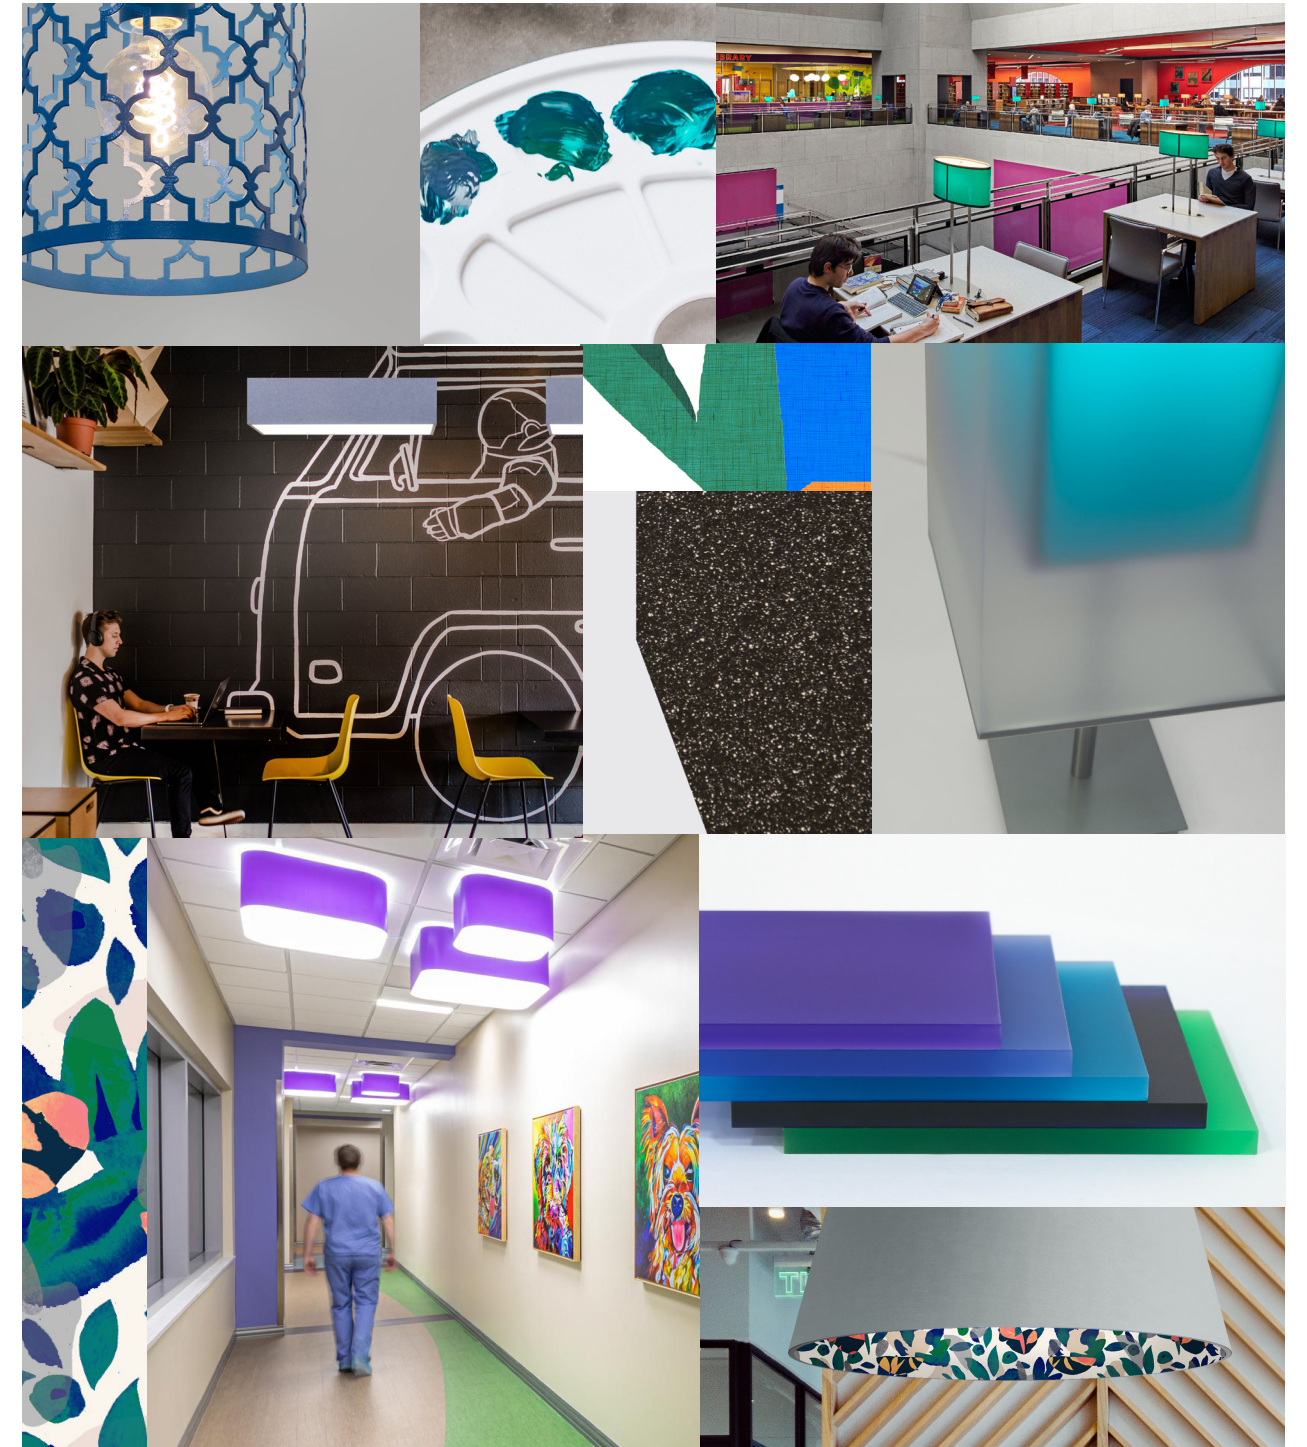

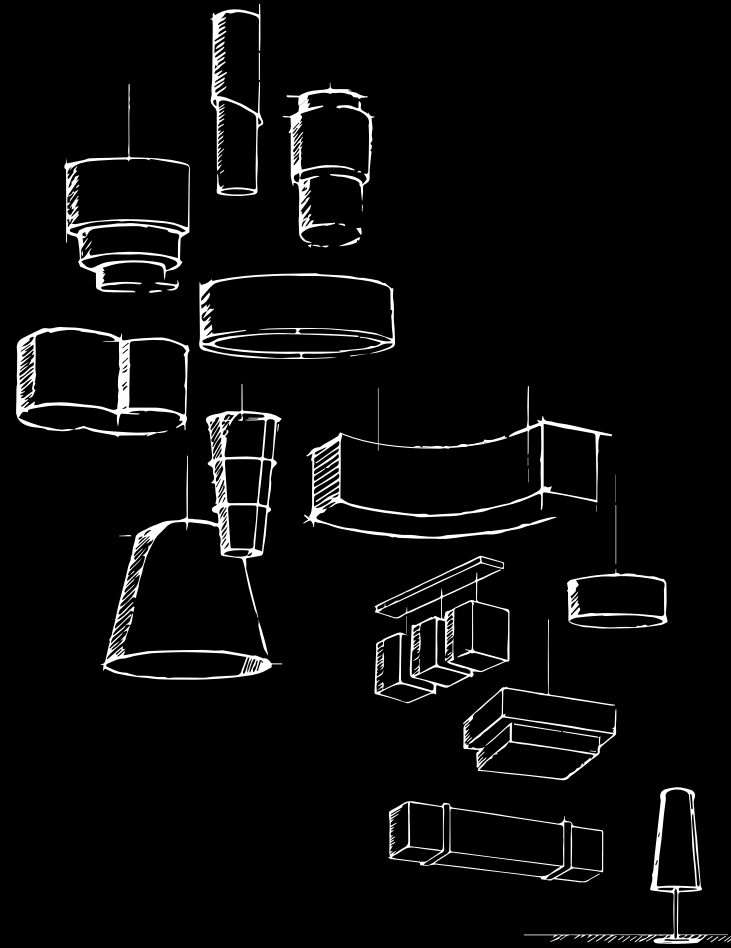

Inspiration

Meaningful and Affective Inspiration is Everywhere

Lumetta's lighting design uses illumination to create space and experiences. Our multi-faceted team is responsible for cutting-edge commercial lighting design.

Lighting creates the right atmosphere and elevates the aesthetics and functionality of the space. The choice of materials is as important as the design.

We've got a discerning eye for developing new and exciting materials. And we'll work with you to execute the perfect lighting solution for your space.

Vision

Quality Craftsmanship for the Design World

Our tradition of exceptional design and craftsmanship defines who we are today—and this vision keeps us moving forward.

“As a trailblazer in the decorative commercial and architectural lighting industry, we pride ourselves on our innovative creativity and firm commitment to quality.”

*Ian Prichett
-President*

Destination Imagination

Insider Knowledge is Essential to Realizing Your Vision

Do you have a design vision? Our design and engineering teams will assist you and share their insights, advice, tips, and inspiration. We'll help you create the lighting of your dreams.

Transcending Trends

Interior Design is Cyclical and Constantly Evolving

Lighting design should transcend trendiness. Our architectural luminaires are timeless and ensure you'll have quality pieces and designs that you'll love, regardless of the latest trends.

When you choose superior quality lighting products and designs you love, they become a timeless part of your surroundings. For this reason, we are a favorite resource for interior designers and architects.

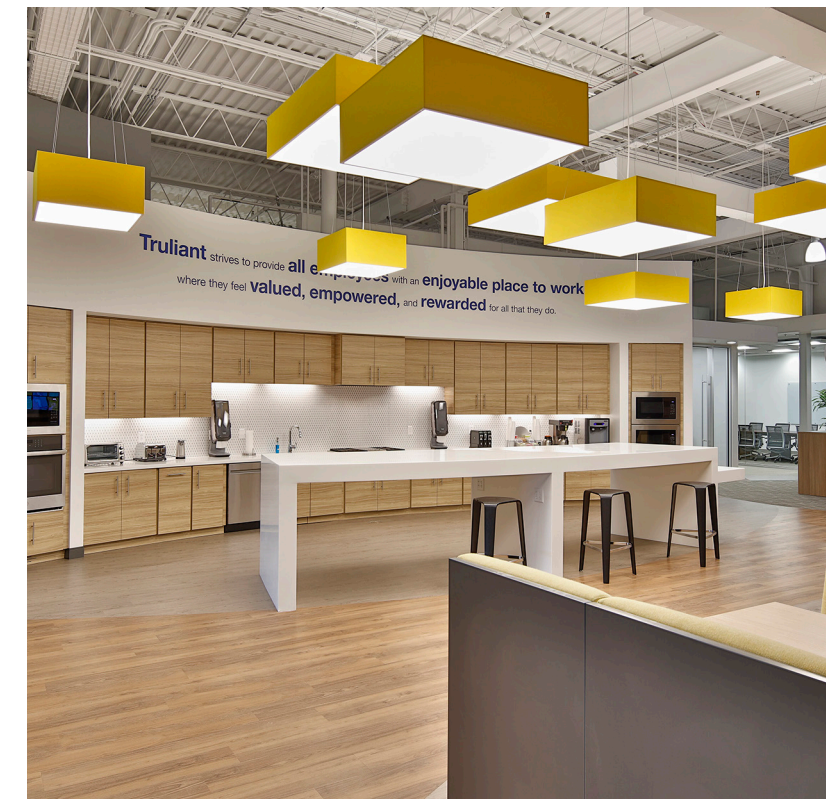

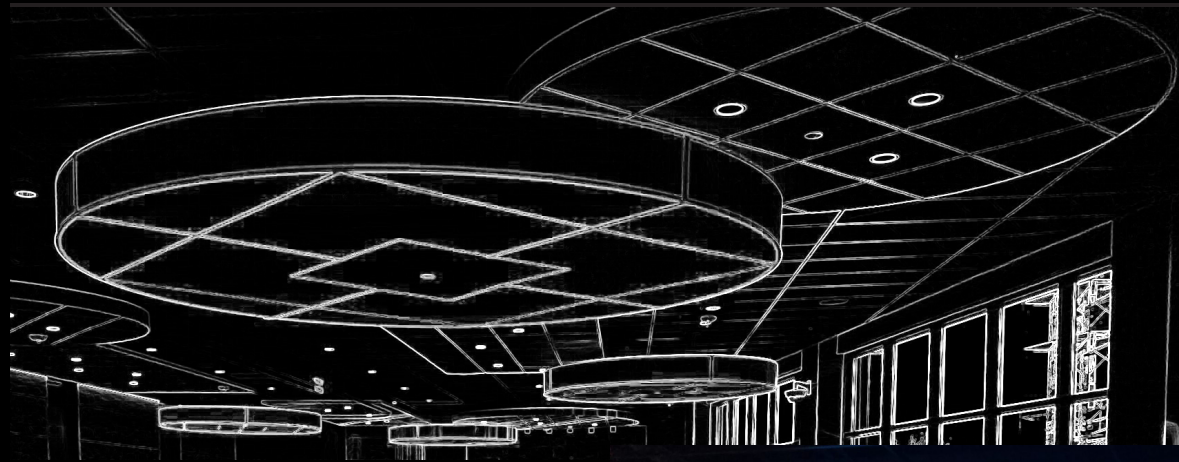

*Mike Floridia
-National Sales Manager*

From Inspiration to Installation

From Concept to Completion—
We're Here for You Every Step of the Way

From inspiration to installation, we'll help you create lighting solutions that not only illuminate your space, but also make it come to life. We'll focus equally on form and function. Get inspired. Choose your style. Plan your space. Embrace the details.

Innovation

Innovative Lighting Solutions that Provide the Perfect Balance Between Art and Science

Decorative commercial lighting has evolved significantly in recent years with the emergence of tunable white and circadian rhythm lighting.

Lumetta is proud to lead in industry innovation; sourcing, and improving upon our materials and manufacturing processes. Our technology and design are interwoven in perfect harmony.

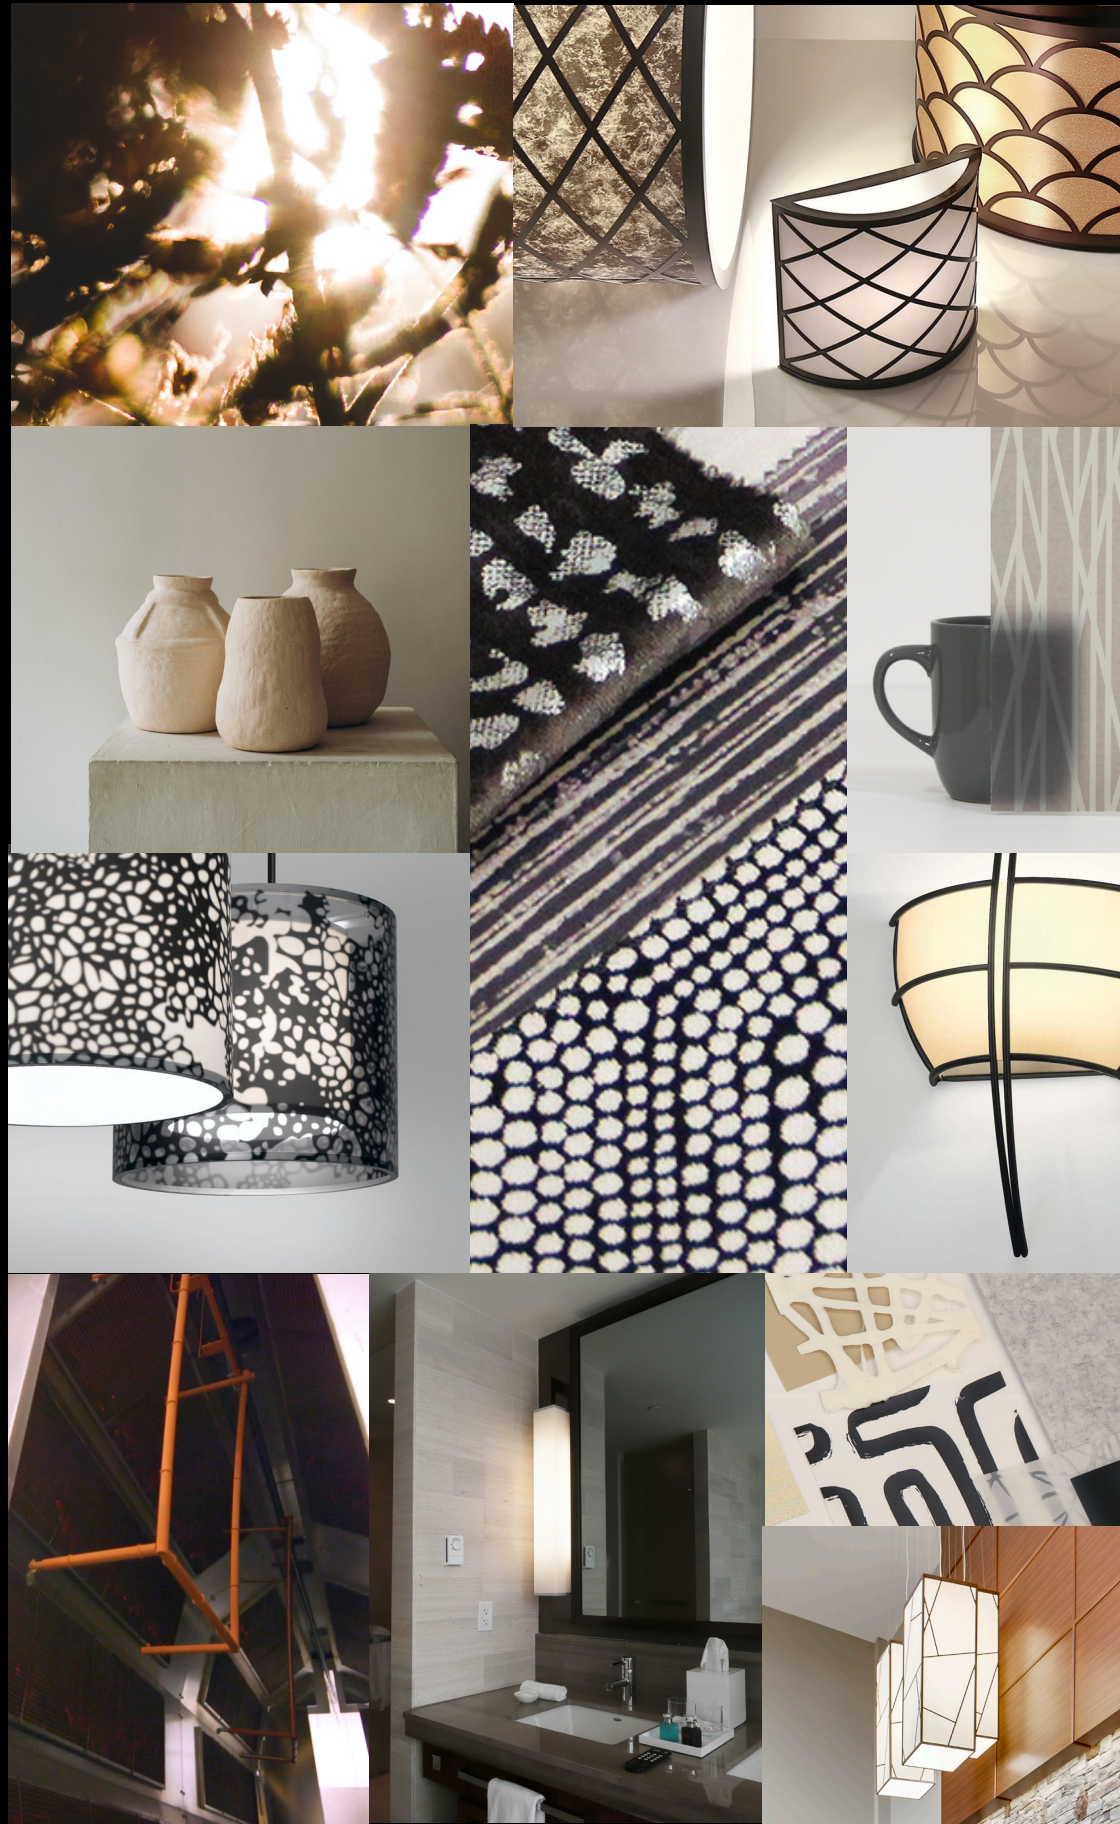

Thinking Outside the Box

At Lumetta, we're constantly thinking outside the box. We're extraordinarily curious and intently focused on finding solutions--which results in our acclaimed creativity and inspiration.

Our company culture encourages out-of-the-box thinking where people are passionate and empowered to drive innovation.

Lumetta strengthens our team's motivation to step outside the box. By inspiring our colleagues, we are able to provide visionary lighting solutions that transcend time.

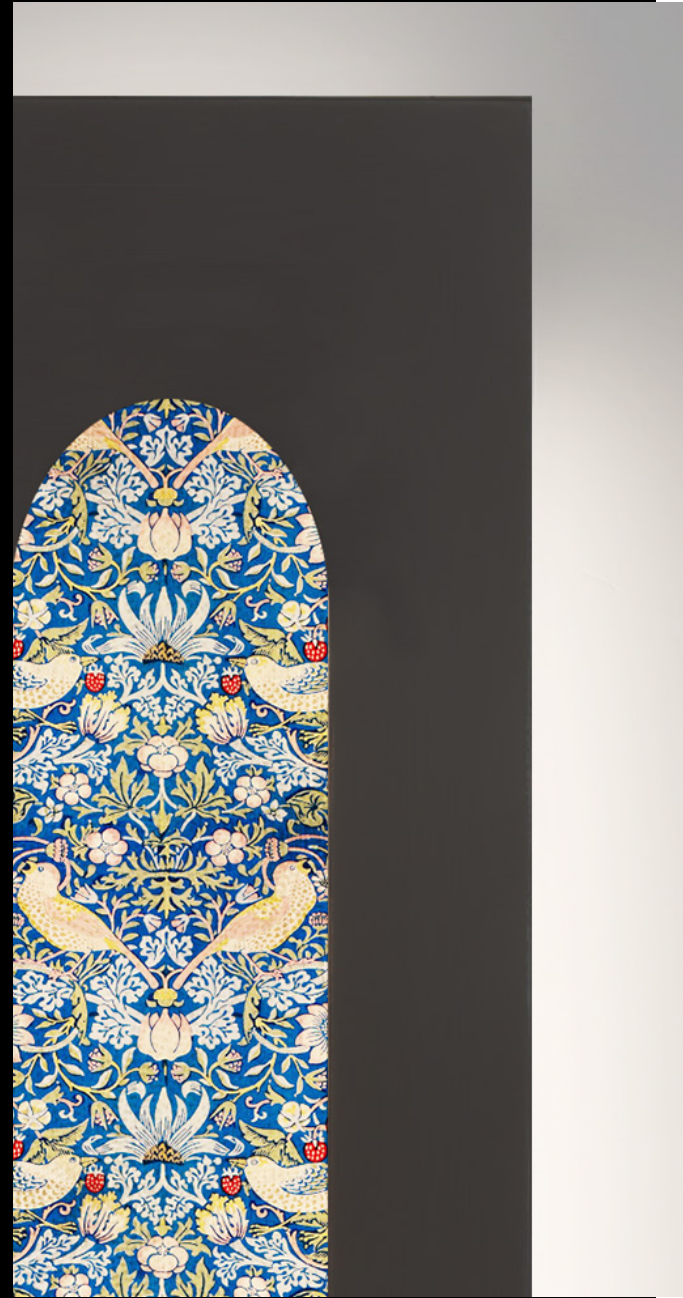

Advanced Manufacturing Processes

Unmatched Research & Development, Craftsmanship, and
Production Strategy

Lumetta designs and manufactures our decorative commercial
lighting solutions with time-honored craftsmanship and an
endless list of options. With our state-of-the-art technical
innovations, we've been providing superior solutions to the
lighting industry for more than three decades.

Laser Focus

Every Lighting Project Begins with a Clear Vision and an Action Plan

From the initial concept to the final prototype to the automation--our laser cutting department can create high resolution sophisticated designs resulting in quality edge cutting. The laser cut metal sheaths create brilliant designs and cast a striking glow that radiates from the lighting within.

Creativity

Enthusiasm, Excitement, Inspiration, and Motivation

We provide the necessary resources to maximize the visionary potential of your project. Creativity comes in many forms, and we recognize there's immense value in sharing with others.

"You can't use up creativity. The more you use, the more you have."

*Maya Angelou
-America Author, Poet, and Civil Rights Activist*

Originality

A Gift of Design from the Heart—Built with Science

Our team draws inspiration from the world around us and we're always looking to add something new.

We actively seek out new perspectives and create space for fresh ideas. With collaborative exploration, our team designs innovative solutions that drive transformative ideas.

A Broad Range of Options

Some Say that Creativity is a Matter of Choice

At Lumetta, we believe that we're all born creative, but imagination is learned. And we're sure your creative juices will flow when making selections from our broad range of options. We pride ourselves on offering unlimited possibilities--and with our extensive combination of styles, colors, patterns, and finishes, you'll achieve your wildest lighting design aspirations.

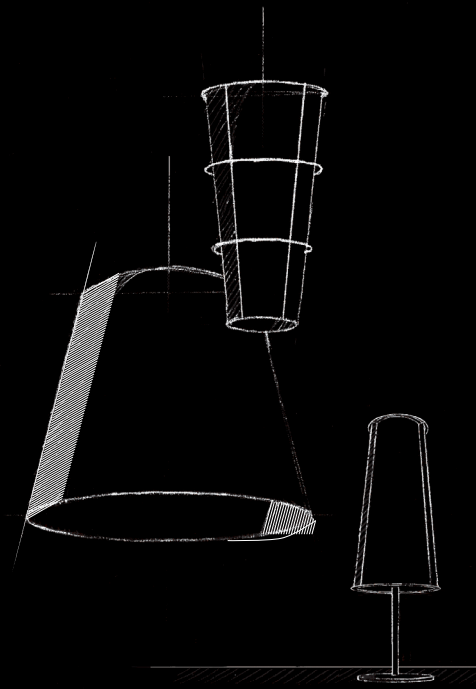

Collaboration

Communication, Innovation, Processes, and Success

We are a team comprised not just of office and factory members, or designers and engineers--but also of an extensive network of many others. We work in unison to find the best solutions--encouraging the sharing of different points of view, knowledge, and skill.

The idea was of dense clusters of large fixtures, loosely metaphorical for gatherings of people and the coming together of ideas. The resultant look is very compelling and reads well both from within the room and from the passage outside, which is a heavily trafficked axis of movement into and through the library."

*Adam Kibbe
-Collaborative Lighting Principal*

No Designer is an Island

Our Highly Knowledgeable Project Team
Will Co-Design Your Vision

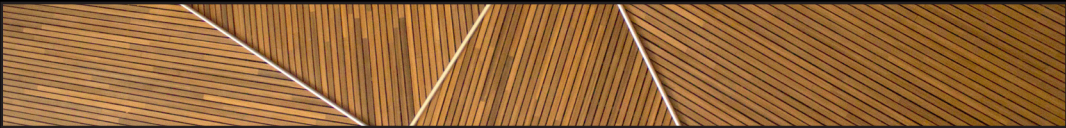

We're client-centric and deeply focused on conducting our business and creating the best experience for our customers. We're here to support your creativity and welcome the opportunity to assist in finding the right lighting solution for you.

Design Thinking in Action

A Strategic Approach to Providing Products that Meet Your Needs

Design thinking and being creatively solution-oriented allows us to launch products that exceed expectations. Through collaborative partnering with others, we put design thinking into action.

Making it Happen

Identify, Create, and Spotlight Good Ideas that Determine Great Results

We collaborate within, and if necessary, beyond our organization to ensure the final product remains spectacular.

Our portfolio has been created to inspire you. This comprehensive collection of decorative luminaires allows for inspirational and innovative lighting design opportunities. Isn't it time to align with Lumetta?
